

JET Inline-II and JET Inline-III

JET Inline-II · JET Inline-III

JET Inline doses fertiliser on the mainline for soilless crops.

A mainline fertiliser injector with a jet-type mixing chamber, five dosing channels and German EC/pH sensors, for 15 or 32 m³/h of irrigation flow.

Irrigation Flow

15 / 32 m³/h

Fertiliser Channels

5

Inlet / Outlet

DN50 / DN80

Programmes

6 time-based

Features

- High-precision EC and pH sensors, imported from Germany, give accurate fertiliser dosing.
- A jet-type sealed mixing chamber blends the solution quickly and evenly.
- A built-in backwashable outlet filter prevents clogging.
- Run it from the touch screen, the HortiECO mobile app or a PC.

Who It Is For

Growers running soilless crops who need accurate EC and pH dosing on the mainline at 15 to 32 m³/h, in direct or day-tank irrigation.
